Dear Paul (copy for Jim),

I have a friend who has been helpful who would be interested in knowing if we have any info on the following names, some of which seem familiar to me and on none of which I have cards of files:

Bill Cies
Kedrick Johnson
Joan Zemirek
American Volunteer Group
Friends of Scott Committee

Dim recollection suggests extremist of the right connection. All of it may be in my imagination alone. However, on Zemarek, Johnson and American Volunteer Groups there seems to be familiarity, less so on Cies (which I may have misread from a handwritten note). The Scott committee is entirely unfamiliar.

Of course, such a name as "American Volunteer Group" would automatically suggest right extremism to me, so the mind may be confabulating 10%

"Kedrick" and "Zemarek" are both so unusual I think there may be some basis for thinking I have seen these names. The Group outfit may be a confusion with an extremist outfit in Illinois.

Sincerely,

From PR originally, attributed to "west coast" sources, which may mean LA or may mean Noyes.
